

## NEXT LEVEL UP MEANING

-**Next** level is what we will constantly focus on pushing each participant toward and will not allow them to stay comfortable with their current ability or in their current situation.

-**Enthusiasm** and fun is what we will strive for and every participant in our program will be pushed to dream, envision, and do both in and away from their sport.

-**eXcellence** is the standard for everything that we do and we will settle for nothing less from any participant in our program.

-**Teaching** every participant the fundamentals of their sport and how it can relate to life is our highest priority.

-**Learning** is something that the kids will be pushed to do our motto "LEARN SOMETHING NEW EVERY DAY".

-**Excuses** is something that will never be tolerated and we will never say the phrase "I CANT"

-**Vertical** is the direction that we want to push every participant. It is very important that every participant has the utmost support from fellow parents and other participants. There will be zero tolerance for negative talk or put downs amongst participants, coaches, and/or parents. Our goal is to become a family and negativity limits us from achieving that.

-**Education** is very important to us and we believe in the student before the athlete. Every participant will be pushed both physically and mentally to dream, envision, and do.

-**Loyalty** is something we take very seriously. We will consistently invest in your child both physically and mentally. We expect that loyalty will be just as high of a priority to you. Any problems that arise should be handled with coach immediately so that we are able to maintain a family atmosphere amongst parents and participants.

-**Up** is our main focus and we will not be content or complacent. We will have a KAIZEN approach in everything that we do.

-**Perseverance** is something that we will encourage parents and participants to practice on a daily basis. We understand that it is going to be hard at times but regardless of what we go through we will not GIVE UP
